

What Recession? Brooklyn Concierge Company Expands its Reach to New York City Boroughs

Manhattanites and other New York City Residents to benefit from creation of sister concierge company.

Brooklyn, NY ([PRWEB](#)) September 29, 2009 -- [All About Brooklyn Concierge](#) announces the launch of its sister concierge company, MetroCity Concierge, created to further expand its reach to New York City residents residing outside Brooklyn.

During a time when the average consumer is cutting their expenses in half, All About Brooklyn Concierge is still seeing an increase in its personal service clientele. Although the majority of its clients reside in Brooklyn, they also service clients in Manhattan and other NYC boroughs; in addition to servicing bi-coastal clients during their frequent trips to New York. "The creation of MetroCity Concierge debunks the myth that we do not service clientele outside Brooklyn, and what better way to do it", states Sharon Beason, the woman behind its creation.

With the majority of New York City's concierge companies concentrated in Manhattan attempting to attain ultra-wealthy and celebrity clients, as well as luxury residential and corporate contracts; [MetroCity Concierge](#) will also join the ranks of concierge companies fulfilling Manhattan residential needs. They will also concentrate their efforts in expanding their services to residents in Staten Island, Queens, the Bronx and New Jersey. Ms. Beason states, "Our goal is to make residents aware that they don't need to be mega-rich or reside in Manhattan to access this luxury service".

In addition to attaining residential contracts with luxury developments and corporate offices throughout Manhattan, MetroCity Concierge will also focus on expanding their vendor affiliate network; while strategizing to take advantage of the weakened economy. MetroCity Concierge will offer reduced introductory rates to all new clients through the end of 2009.

All About Brooklyn Concierge:

All About Brooklyn Concierge is a full-service concierge company assisting extremely busy individuals with the demands of their hectic lifestyle. Its esteemed clientele include judges, lawyers, doctors, CEO's, business executives, business owners and bi-coastal residents; and its five-star services are offered throughout the beautiful borough of Brooklyn, New York.
